Losing jobs

Losing health insurance would also be devastating for family finances and hurt the economy. By helping pick up the tab for individual insurance and expanding coverage on Medicaid, the ACA has helped millions of Americans afford their care. If this support were withdrawn, people would have less money to spend on other basic necessities like food and rent. **Fewer dollars spent at grocery stores and other businesses means 1.2 million jobs would be lost.**

How many jobs would be lost if the ACA were repealed?

Indiana: Total employment in Indiana would drop by **0.6%**; **18,111** jobs in Indiana would be lost. This would eliminate **5.9 out of every 1,000 jobs**. Indiana would lose **\$1.6 billion** in federal health care dollars.
